

UNCONVENTIONAL REALITY

BY CANDELA HERNÁNDEZ

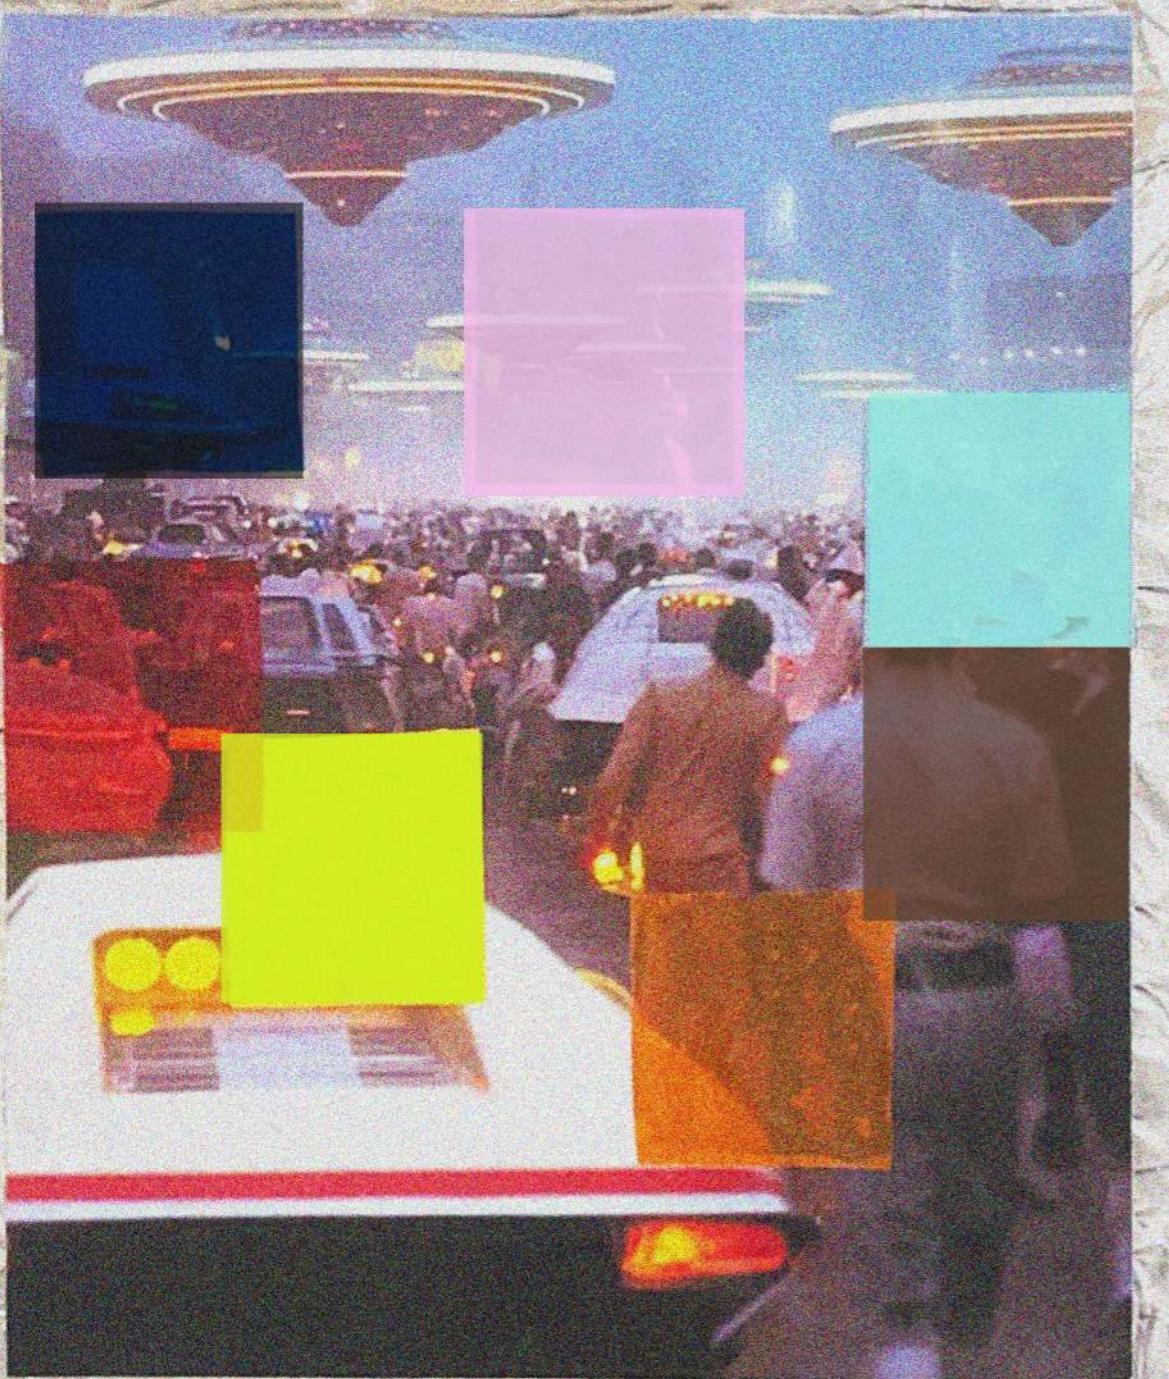

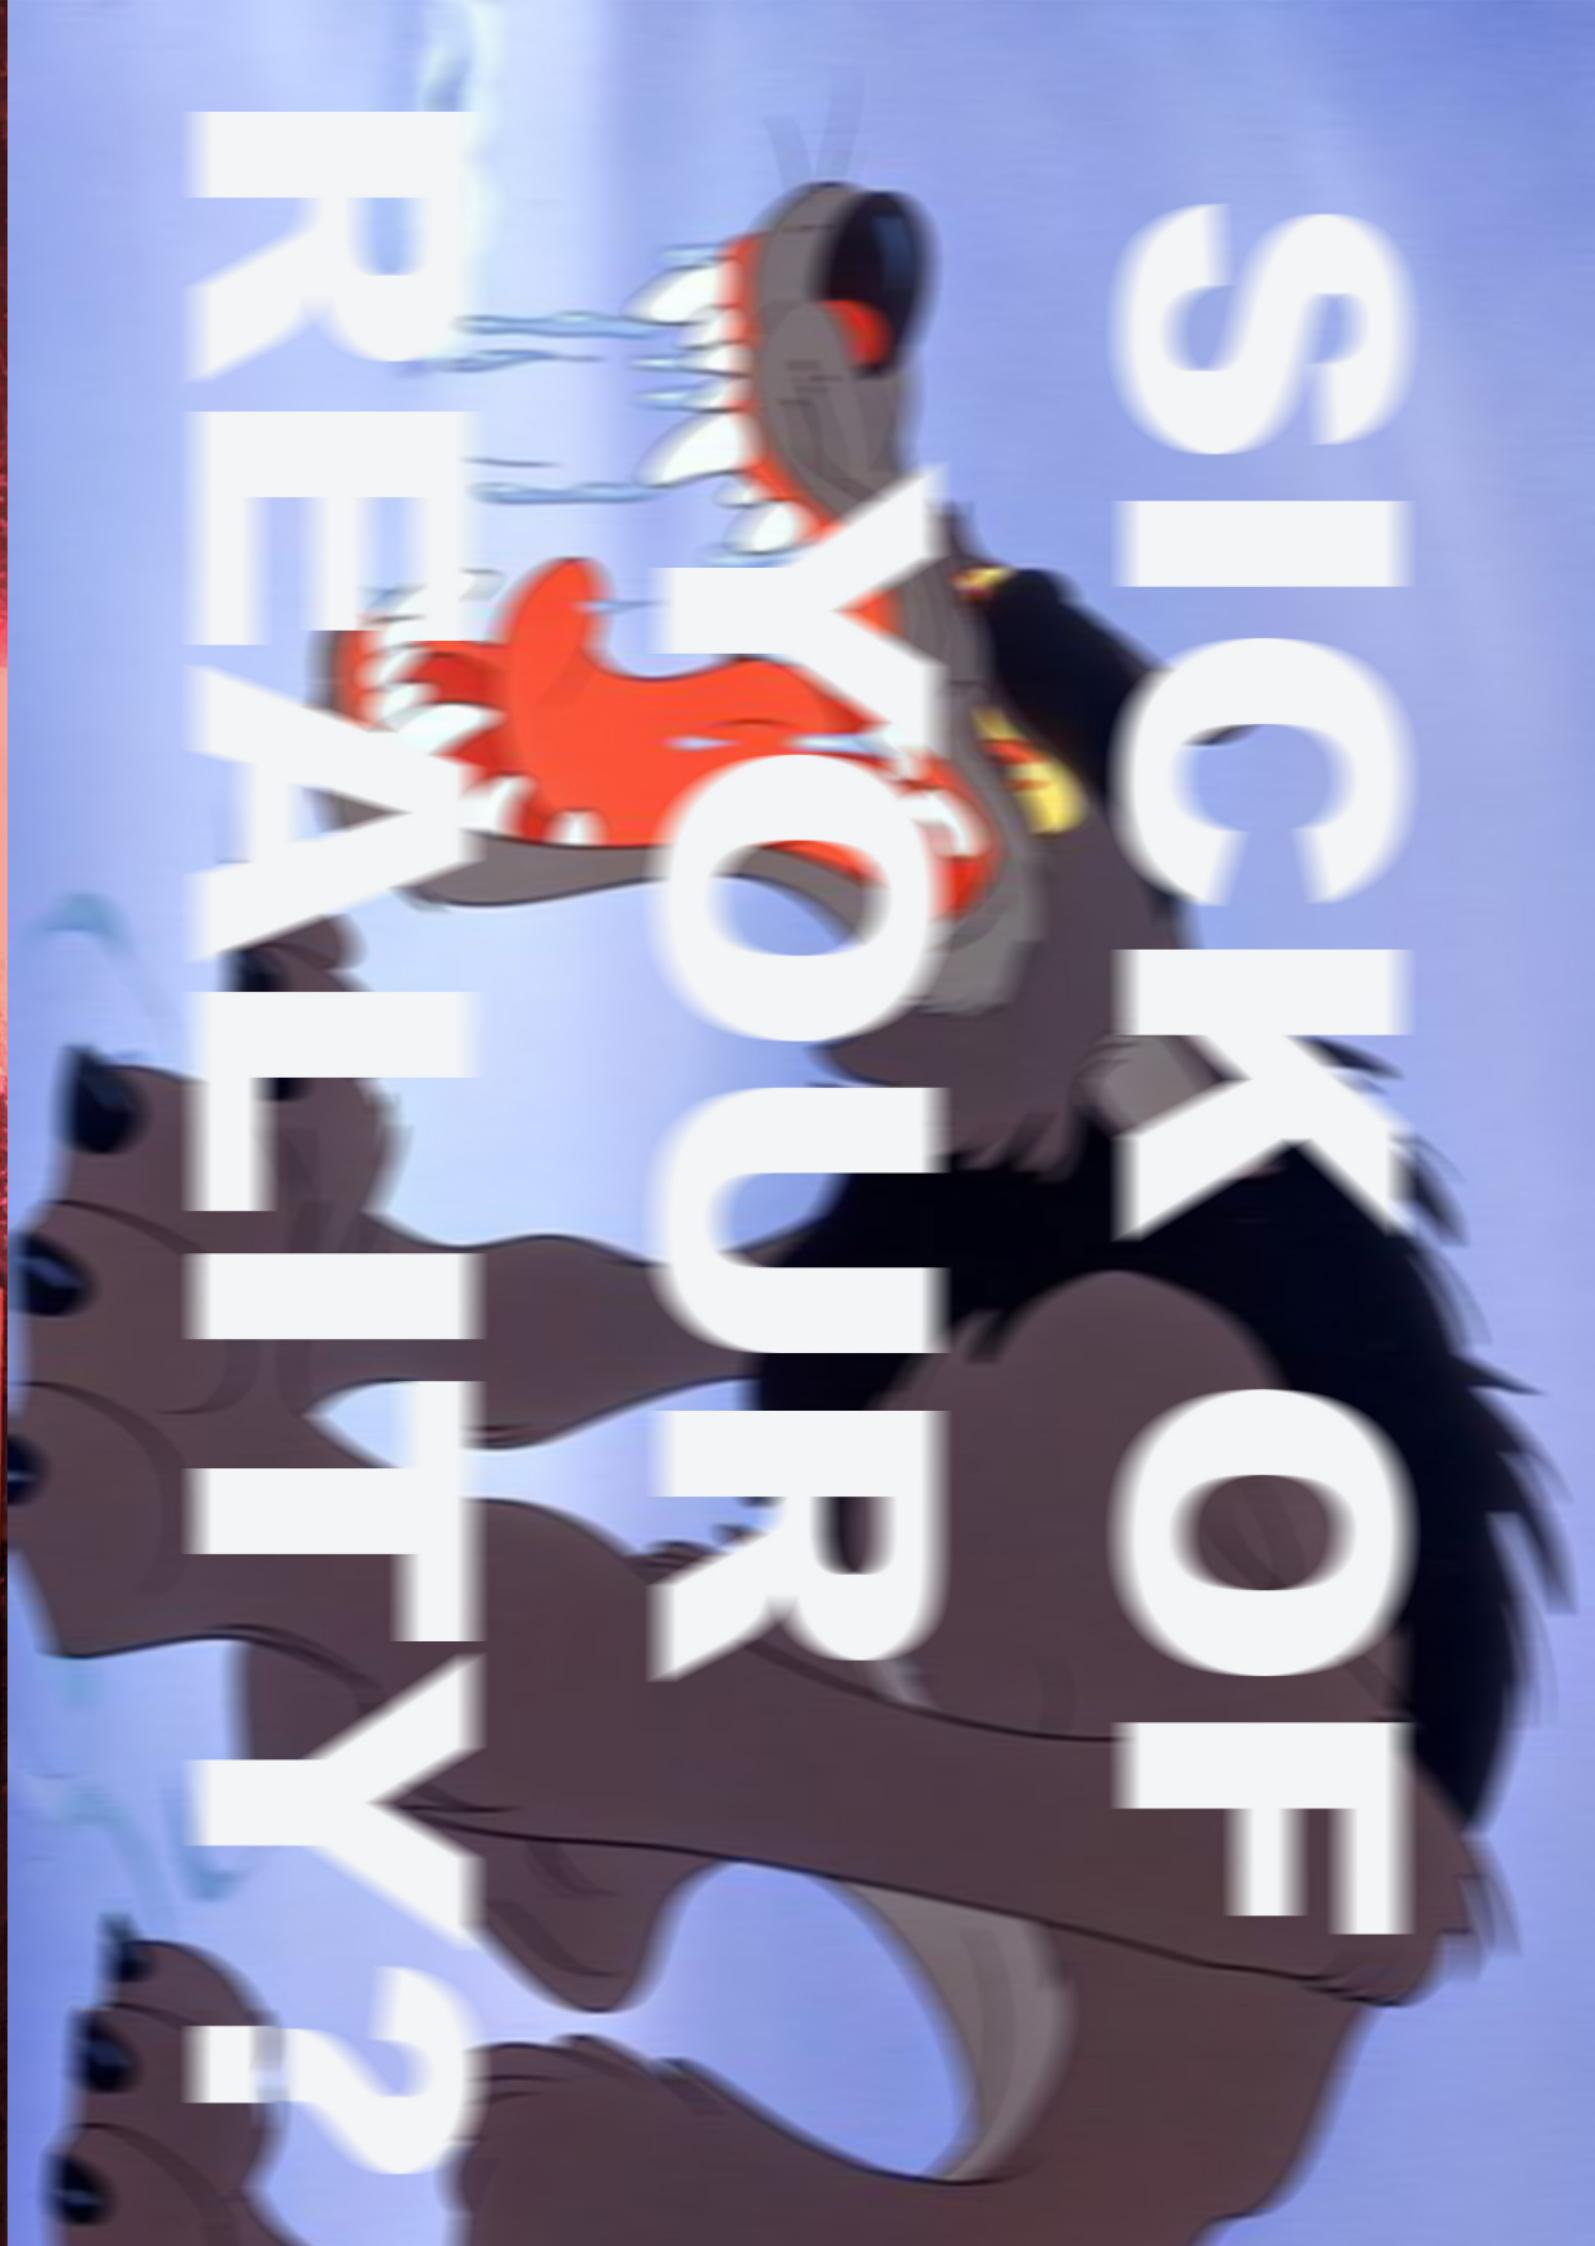

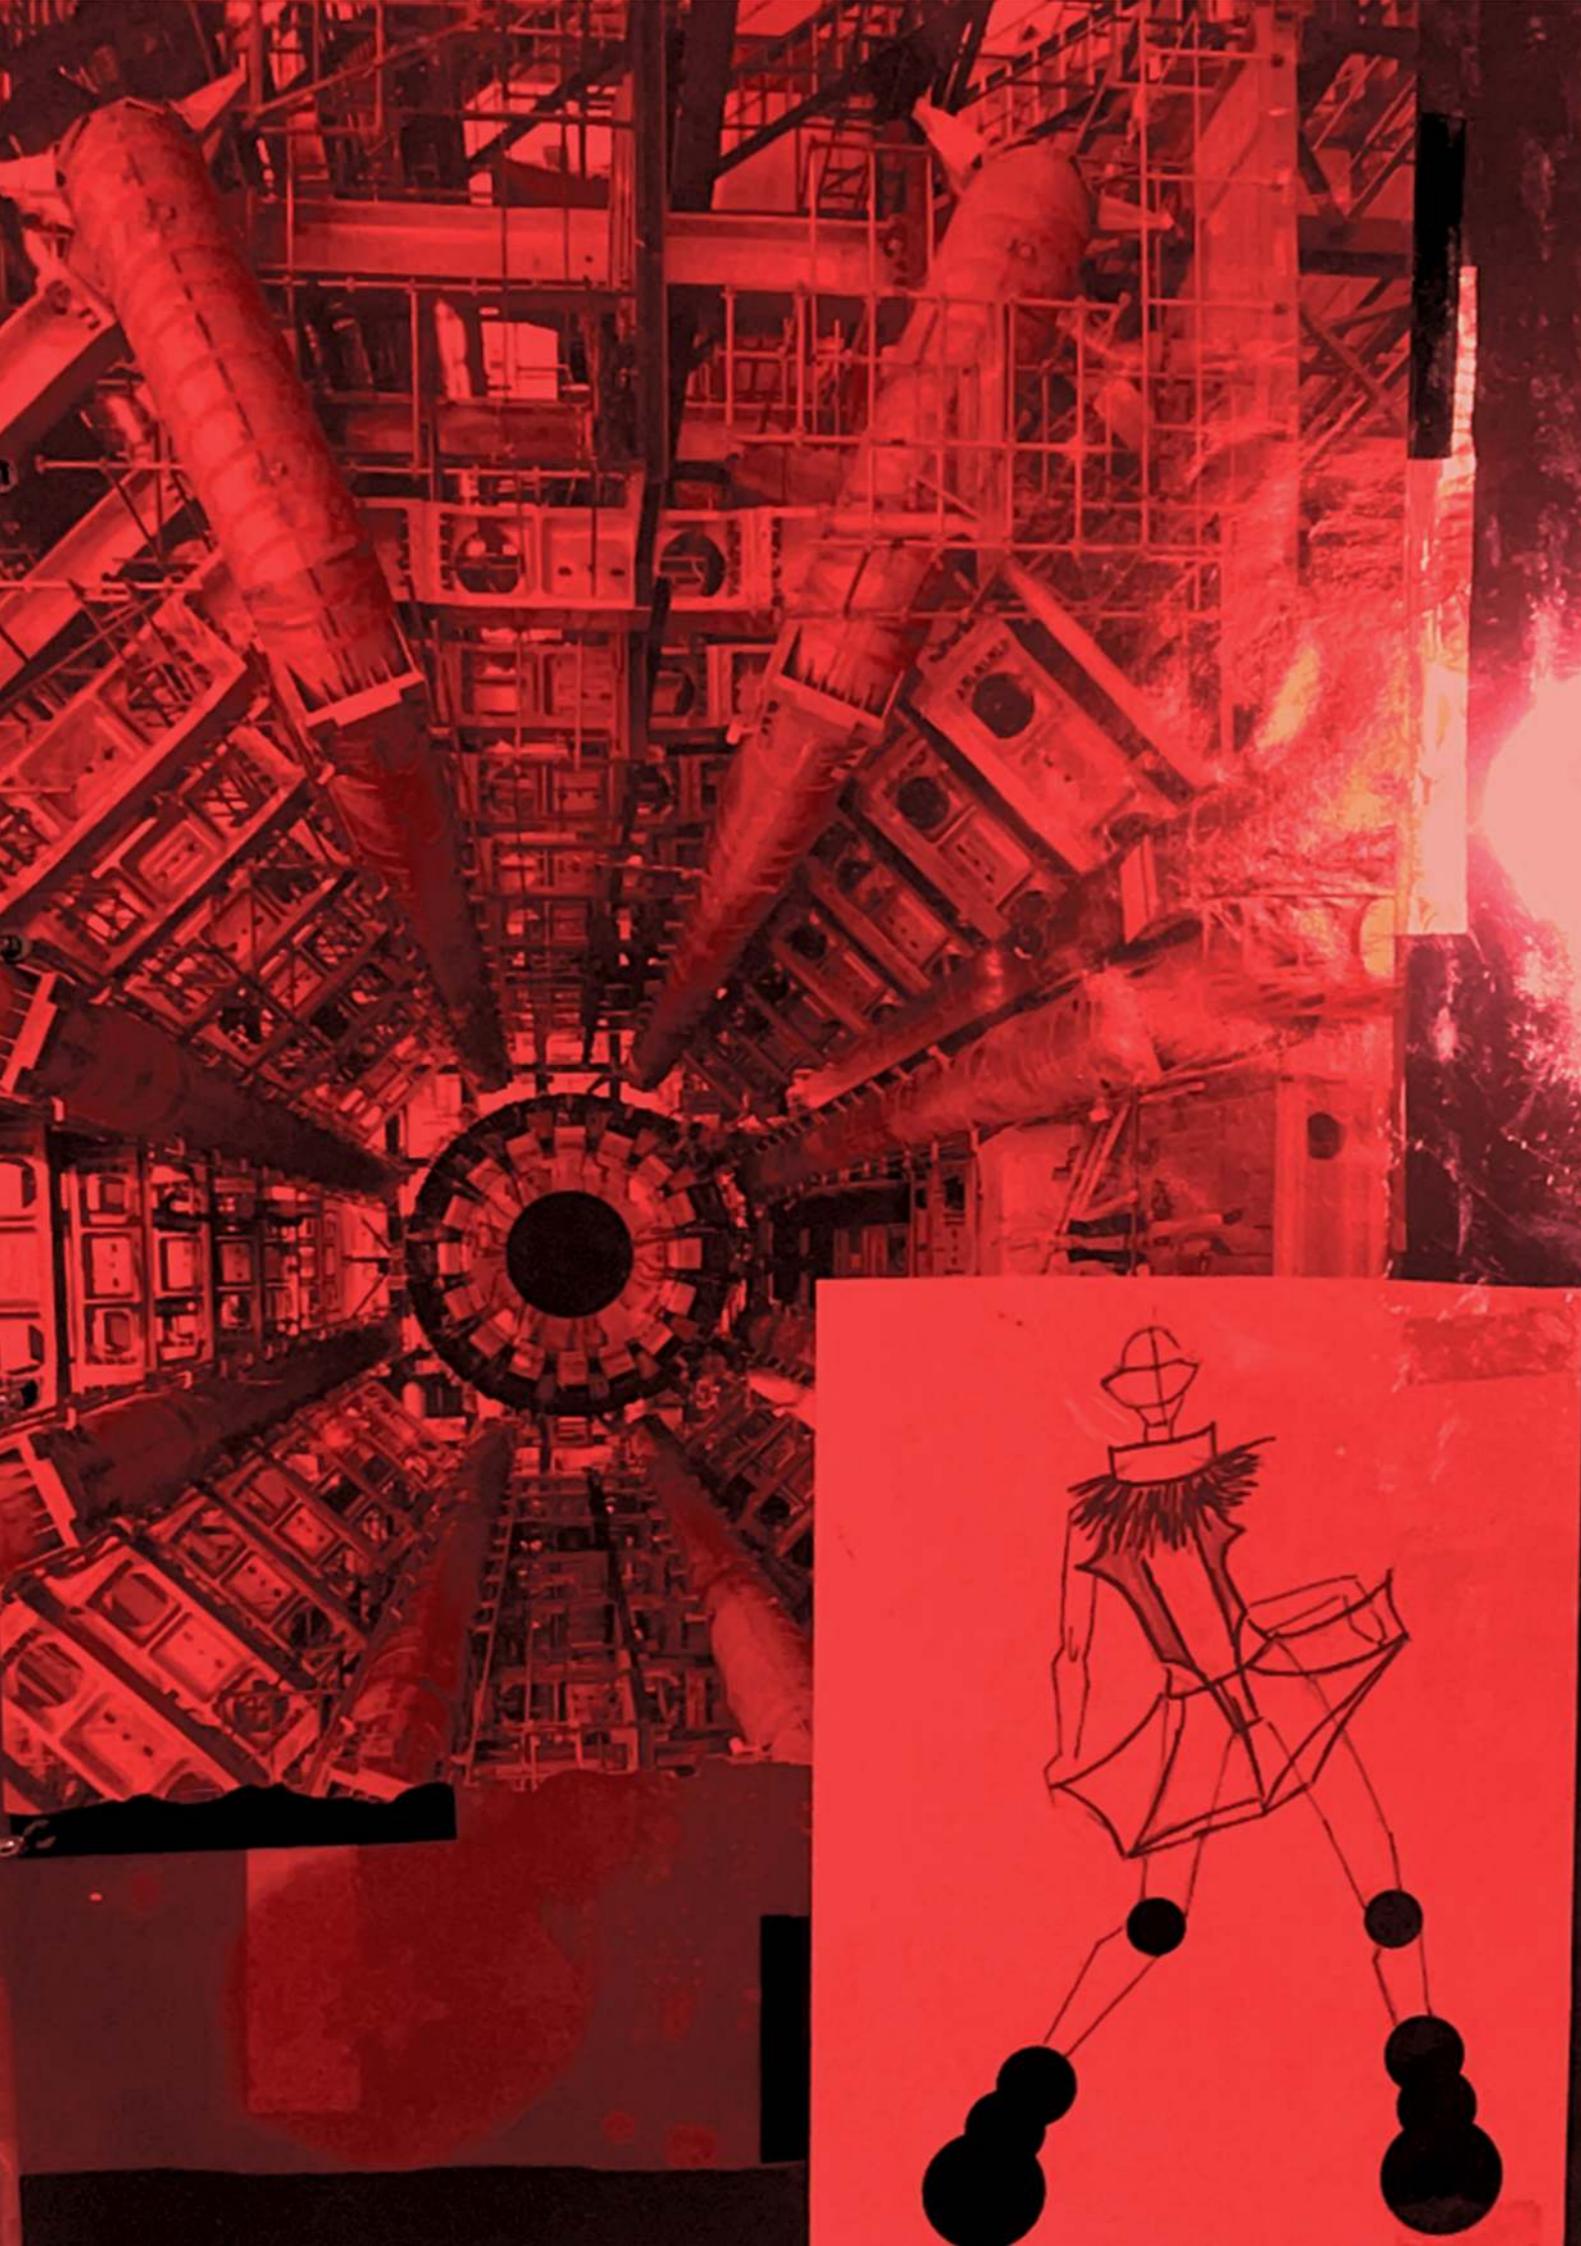

UNCONVENTIONAL REALITY

This project explores the search of identity through futurism and non traditional elements. Inspired by the rebellious energy of youth culture, using futurism as a tool to express individuality, unconventionality and self-definition.

The designs challenge traditional norms not only through silhouette, but also through textures, materials, colors, and unexpected combinations, creating garments that feel experimental yet wearable.

Creating this cyborg girls that are a hybrid of technology and human, becoming a symbol of liberation. They break the traditional understanding of identity and reality.

GORILLAZ

Gorillaz is a virtual band created in 1998 by musician Damon Albarn (lead singer of Blur) and artist Jamie Hewlett (co-creator of *Task Force*). This band is known for its unique blend of alternative ROCK, ELECTRONIC, HIP HOP and SOFT and for its visual characters: 2D (vocal, boyband), MURDOC NICCLES (bass), NOODLE (guitar) and RUSSEL HOBBS (drums). Their music often a mix of avant-garde and various genres, and the bands fictional universe, combined with groundbreaking animation and story-telling, has made them iconic both music and pop culture.

A large, semi-transparent graphic of a sheep's head and front legs is overlaid on the right side. The background features a repeating pattern of the text "DON'T STRAY FROM THE FLOCK".

TEXT

Daft Punk or Justice come to mind easily as iconic bands that are part of the French electronic music scene known as the 'French touch.' This is not necessarily the case for DJ Mehdi, (full name Mehdi Fevrier-Essadi) who was, nevertheless, a key player in that movement. The 2024 documentary series *DJ Mehdi: Made in France*, directed by his friend Thibaut De Longville, goes some way to redressing this; portraying an artist with an immense capacity to be at the crossroads of diverse social and musical environments. Some 14 years on from his untimely passing – when a glass veranda floor in his Parisian apartment suddenly shattered, causing him to fall several feet – his legacy within France's music scene is finally being reckoned with.

To try to capture the life of a deceased artist is a delicate exercise that requires humility. De Longville's portrayal of Mehdi immerses in Mehdi's life through archival video and imagery, while speaking to those he was closest with. But to truly understand the roots of Mehdi's unique sound, we must return to 2000, and the release of *Espion Le EP*—produced under Mehdi's own label, Espionnage. To get a sense of the Espionnage era, I spent time talking to the people involved in the project.
